

hello future

OCTOBER 23 & 24, 2019

MICROSOFT THEATER + LOS ANGELES CONVENTION CENTER

The LA Promise Fund knows that the future of the global economy will be driven by careers in STEM related fields. Yet there continues to be a significant under-representation of young women and minorities in those areas.

Designed to address the pipeline problem with STEM, Hello Future launches October 23, 2019 with an innovative interactive experience held at the Microsoft Theater and Los Angeles Convention Center. The experience will **ENGAGE**, **INSPIRE**, and **EMPOWER** young people from middle school through college by bringing them together with today's most disruptive entrepreneurs, tech innovators and brands.

OUR IMPACT

10K students from across Los Angeles county

200+ Schools Participating (Middle + High School)

2 Keynotes from Inspiring Speakers about STEM

6+ Panels on Relevant & Exciting STEM-related Topics

100s of Hours of Content

This year, Hello Future has partnered with YoMo Los Angeles, giving all our partners increased exposure via their 3-day event. Produced by the GSMA, YoMo Los Angeles will welcome 6,000 additional school children from across California to one huge showcase of science and technology.

BROUGHT TO YOU BY

COME JOIN OUR CAREER FAIR

A key part of Hello Future will be our Career Fair on October 24th. We will host over 100 companies from the STEM-space with the goal of helping students learn about future careers in STEM, interview for opportunities, and prepare to enter the workforce.

Participants will be:

- Lead career workshops where students can learn about potential career paths in STEM
- Hosting soft-learning skill sessions on topics like emotional intelligence
- Holding one-on-one career meetings with students
- Helping attendees build their resumes, take professional portraits, and more...

HOW CAN YOUR COMPANY PARTICIPATE?

Host a table and highlight your company's commitment to diversity and inclusion, with an opportunity to recruit qualified candidates for internships and entry-level roles in STEM-related fields.
